

Solutions Design Guide

From the Desk to the Boardroom:
ProAV Essentials for Every Workspace

SOLUTIONS OVERVIEW

SINGLE WORKSPACES

page 4 – 11

The modern personal workspace has transformed significantly, driven by laptops, remote work, home offices, and hot desking. Users now demand seamless connectivity with a single cable, facilitating power, data, and video transmission. This expectation arises from the necessity for versatility in remote meetings and dynamic work settings; the needs of the workplace, mobile office and home office have in recent years merged. A key feature of this contemporary work experience is a streamlined, all-in-one connectivity solution.

HUDDLE ROOMS

page 12 – 13

Huddle rooms have transformed collaborative workspaces, fostering quick, informal discussions with teams. These flexible spaces demand equipment that operates seamlessly. An ideal huddle room includes user-friendly AV technology; high-quality displays, intuitive video conferencing, reliable connectivity like wireless screen sharing, soundproofing, ergonomic furniture, and adaptable lighting. These components ensure efficient communication and enhanced productivity in dynamic collaborative environments.

MEETING ROOMS

page 15 – 17

Meeting rooms have rapidly evolved into dynamic collaboration hubs. Today, users expect more than a traditional setup; they seek intuitive technology seamlessly integrated with their modern devices. This shift requires AV solutions that effortlessly sync with personal gadgets, providing wireless connectivity, intuitive controls, and cross-platform compatibility. The goal is for technology to complement, not complicate, meeting environments for smooth interactions and maximized productivity.

MODERN CLASSROOMS

page 18 – 19

In modern education, the demand for a high-tech multimedia AV teaching environment is paramount. It is critical however, that the technology seamlessly supports educational objectives without ever overshadowing the lessons core content. The challenge lies in creating this immersive experience on a reduced budget. Achieving this balance necessitates innovative AV solutions that integrate seamlessly, augmenting learning experiences while being cost-effective.

SINGLE SCREEN

USB4
WORKSPACE

We recommend
34" UWQHD Screen
3440 x 1440p

The USB4 Package - Single Screen Windows or Mac

The single screen workspace option is ideal for users who prefer a single wide screen monitor alongside their laptop, but still need access to high-powered peripherals. Includes a sleek docking station, ergonomic laptop stand, and a versatile one-cable connection that supports 100W charging to achieve an all encompassing workspace with minimal clutter.

15-in-1 USB4 Dock

VL-D200

The core of the USB4 Package is the Vuelogic D200 - future proof 40Gbps transfer speeds and 100W PD charging means you have the power to perform today and tomorrow.

With support for up to 8K screen resolutions, fully compatible with all legacy USB standards as well as Thunderbolt 3, this dock will still be relevant for years to come.

USB4 and Thunderbolt 3
Cutting edge 40Gbps USB4 connectivity and Thunderbolt 3 support.

100W Charging
100W PD plus independent peripheral device charging.

UPGRADE

SINGLE SCREEN

PERSONAL KVM WORKSPACE

We recommend
**1x 4K
Screen**

The Personal KVM Package - Single Screen Windows

If you have both, a desktop PC and a laptop, the Personal KVM Package is the perfect choice for you. Seamlessly switch between your desktop PC and laptop without the hassle of cable changes or device unplugging. Connect your laptop to instantly access all your devices and monitors, eliminating mess and stress. The package's ProAV fixed install features make it suitable for both public areas and hot desk scenarios.

Fixed Install KVM Dock

PT-PSW-21HC-KVM

The switching dock at the center of this package boasts many ProAV features that make it ideal for permanent install - balanced audio output, locking USB-C ports and of course professional mounting. On the docking side it offers full 100W PD, dual SuperSpeed ports and a Gigabit fixed LAN port. It is the perfect hybrid of professional and commercial technology.

ProAV Mounting
The PT-PSW-21HC-KVM offers pro mounting unlike most docks on the market.

KVM Switcher
Switch instantly between your laptop and your desk PC without ever swapping cables.

DUAL SCREEN

ALL PURPOSE WORKSPACE

We recommend
2x 23" Screen
1080p

The All Purpose Package - Dual Screen Windows or Mac

For a solution that suits the vast majority or can be rolled out in the whole office regardless of working styles, the All Purpose Package is the one to choose. Dual screen 1080p is perfect to spread out and get working, whilst remaining economical for mass deployment. With its DisplayLink compatibility, even Mac users can benefit from multi-screen layouts **and** leave their laptop open. Includes a cross-compatible USB-C docking station, ergonomic laptop stand, and a versatile one-cable connection with 100W charging.

14-in-1 DisplayLink Dock

VL-D210DL

The All Purpose Package makes great use of the Vuelogic D210DL's DisplayLink omni-compatibility, you can choose between DisplayPort and HDMI connections to your monitors, and it has enough spare ports to hook up your essentials, charge your devices and transfer data at lightning speed.

Omni Connect
DisplayLink compatibility means that finally both Windows **and** Mac users can enjoy multi-screen.

100W Charging
100W PD plus independent peripheral device charging.

DUAL SCREEN

SIGNATURE WORKSPACE

We recommend
**2x 27" 4K
Screen**

The Signature Package - Dual Screen Windows

For installations where style and aesthetics matter, this dual screen workspace option is the perfect choice. Utilizing the mediahub2's subtle enclosure design, the user is furnished with a powerful docking solution that doesn't detract from the design aesthetic of the working environment, whilst remaining economical enough for mass deployment. Less is more with this package - dual screens, camera and cables to connect them - everything you need; no more no less.

Designer USB-C Dock

M2-ENC07-9940

mediahub2 is not only beautifully crafted but also intelligently designed. Fixed devices such as Ethernet, camera, keyboard + mouse dongle, are all subtly hidden at the rear while at the front, a SuperSpeed user port is in easy reach for USB-C headphones or a SSD drive - simple yet elegant.

mediahub2 Design
White, Black or Space Grey enclosures perfectly match your interior design choices.

Optional Mounting
Mountable on the wall, under a desk or shelf, or clamped securely at the edge of the desk.

**UPGRADE

DUAL SCREEN

PUBLIC WORKSPACE

We recommend
2x 27" 4K
Screen

The Public Package - Dual Screen Windows

When the workspace is in a public area i.e. a hotel lobby, or it serves multiple users such as a hot-desk scenario, then it is important that the tech is hidden and fixed. The Public Package centres around a fixed installation that must exceed the standard required for consumer IT grade products, and instead meets ProAV standards of installation quality. Up to 4K Dual monitor support and when used with single wide screen display, it is fully compatible with Mac as well as Windows. For extra peace of mind the HDMI connection is secured using ULS.

Fixed Install USB-C Dock

PT-HUB-100

Hiding under the desk in this package is the worlds first ProAV dual 4K USB-C docking station. Designed to have the customer facing connections on one side, it can be mounted under the desk or hidden from the user entirely - enabling maximum flexibility and security to any professional installation.

ProAV Mounting
The PT-HUB-100 offers pro mounting unlike most docks on the market.

Full Feature USB-C
100W PD, 10G data and 4K video and Gigabit Ethernet in a Pro AV package.

UPGRADE OPTIONS

The PM-OFFICE-02 with its screwable clamp, adds a fixed installation for added security.

DUAL SCREEN

EXECUTIVE WORKSPACE

We recommend
**2x 27" 4K
Screen**

The Executive Package - Dual Screen Windows

In a private office you can take your headset off and turn the volume up. With the Executive Package we've made sure that the audio quality is second to none. The dock in this package is powerfully equipped with an integrated speakerphone. Trust the omnidirectional mic to catch every word and the 4K AI-enabled camera to track your every move. Thanks to its crystal-clear sound reproduction and the dual 4K screens, you can see and hear the reaction of your team as if they are in the room with you. Never leave the comfort of your office for meetings again.

10-in-1 USB-C Speaker Dock

VL-SD200

The SD200 is fully loaded with plenty of SuperSpeed even SuperSpeed+ ports, Gigabit Ethernet and dual 4K outputs. Unlike most docking stations though, it comes with a 5W speaker and a quad microphone array. With the Bluetooth function you can even benefit from this pro audio experience on your phone.

Portable Meeting

Take SD200 with you and hold a professional conference call directly from your hotel room.

Pro Audio Experience

5W speaker and quad array mic give you a meeting room audio experience in your office.

**UPGRADE

TRIPLE SCREEN

EXTENDED LITE WORKSPACE

We recommend
**3x 27" 1080p
Screen**

The Extended Lite Package - Triple Screen Windows

Efficient multitasking requires a clear view of the tasks at hand. The Extended Lite Package facilitates this by allowing your chat windows on the left, a full-page browser on the right, and a central full screen for primary work in the middle. It includes monitor stands, an alt mode docking station for multiscreen setups, an ergonomic laptop stand, and a one-cable connection with 100W charging.

15-in-1 Alt Mode Dock

VL-D220

Central to the Extended Lite Packages triple display capability is the Vuelogic D220. 2x HDMI 2.1 ports and a DP 1.4 provide the necessary power for your personal control room and it still has enough spare ports to hook up your essentials, charge your devices and transfer data at lightning speed.

8K Resolution
8K 30Hz on a single screen or up to WQHD on 3 independent screens.

100W Charging
100W PD plus independent peripheral device charging.

**UPGRADE

We recommend
55" TV
3840x2160p

Huddle Space Lite

To get a meeting with just a few people up and running as quickly as possible, you need reliable and easy-to-use equipment. This is why we have developed our Huddle Space Lite package. Perfect for small teams of 2-3 people, it seamlessly integrates a TV, TV mount, video bar, and a presentation switcher. Connect Windows/Mac Host PCs effortlessly with HDMI and USB-C connection. Simple yet effective.

Fixed Install KVM Dock

PT-PSW-21HC-KVM

The 21HC ensures the Huddle Space Lite package is packed full of the exact features you need to install quickly and perform effortlessly - CEC device control, auto-switch and of course professional mounting. Sources can be either HDMI or USB-C + 100W PD, either can make use of the SuperSpeed ports and a Gigabit LAN. A great mix of essential user features and ProAV utilities.

Huddle Space Control
Intuitive room control via CEC and RS232 activated by button and cable insertion.

2x1 KVM Switcher
All the benefits of a commercial docking station and a ProAV KVM switcher in one box.

LARGE PRO MEETING ROOM

8 - 10

We recommend
75" TV
3840x2160p

Large Pro Meeting Room

Need to equip an even bigger meeting room? For a meeting space for 8-10 participants we designed our Large Pro Meeting Room as the ultimate union of our Vuelogic product range. Enjoy a 75" TV professionally mounted on the wall with our Vuelogic XL Wall Mount. For seamless connectivity, HDMI and USB connections are available, or wireless engagement through a cutting-edge dongle and streaming codecs. Ensure clear communication with an extension microphone, and effortlessly control the setup with your Windows laptop or MacBook.

All-in-One Video Bar and BYOD Switcher

VL-VB300

The VB300 is the flagship model in the Vuelogic series. An effortlessly stylish and usable conference room essential. One single device to fully manage every aspect of your conferencing and collaboration needs. A premium video bar boasting a smart 4K camera, a 4 MEMS mic array, powerful stereo speakers.

Integrated into this is a media switcher with inputs including, USB-C incl. 60W PD, HDMI + USB, and cross platform wireless connectivity.

Extension Mic

VL-MIC100

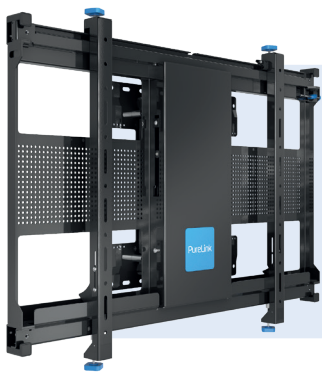

Whilst the mic array of the VB300 is perfectly capable of operating alone, any meeting room with a 75" TV, is very likely to be quite big. That's no problem for audio reception though, as adding the MIC100 extension microphone, with its daisy-chain connectivity and included Cat cable extension dongles, is simplicity itself.

Wireless Presentation Dongle

VL-DGL100

For meeting participants that are unfamiliar with the meeting room or for larger conference rooms, the USB-C dongle is the ideal way to share your content. For simultaneous collaboration, two dongles can be used. Simply plug in and press to connect.

No-Touch XL Wall Mount

VL-WM-NT600

For a large scale TV that must be precision-mounted in a niche the No-Touch Vuelogic Wall Mounts are the perfect choice. Seamlessly integrate any size TV into the wall with millimetre precision, for a truly spectacular finish to your modern meeting space.

MODERN CLASSROOM

1

We recommend
85" Touch Screen
3840x2160p

Modern Classroom

Teaching should only be about teaching. We have ensured that the tools and equipment needed to teach, work seamlessly without interrupting the lesson. The Modern Classroom Kit merges the smartboard or projector with any modern laptop or PC and adds easy access to teaching aids such as document cameras etc, with the aim of empowering any mixed media teaching environment - let the focus be on the lesson and not on the technology.

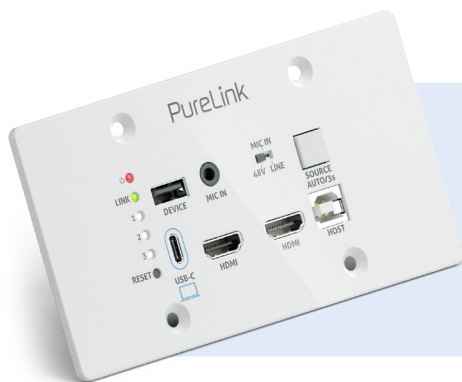

Receiver Base Station

PT-PK200-RX

At the heart of the Modern Classroom Kit sits the receiver base station; the central component of the PK200.

The base station acts as the HDBaseT 3.0 hub for the two wall plates and features 2x USB-A and 1x USB-C ports for HID devices and enough bandwidth for a camera.

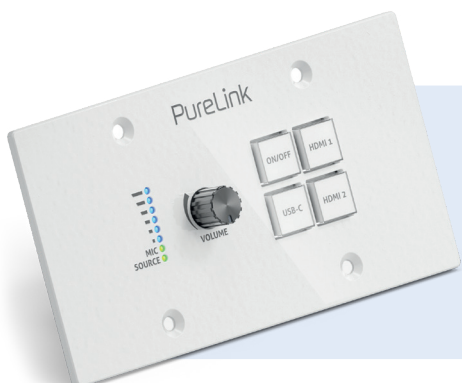

It offers a 4K output, external control via TCP/IP, RS232, and IR for seamless management, as well as a balanced audio output port for use with the PT-AA220 room amp or any preexisting audio system.

2x1 HDBaseT 3.0 Switching Wall Plate

PT-PK200-TX

The primary interface for the teacher is the transmitter wall plate which features a USB-C input with PD injector for a laptop, HDMI and USB-B 2.0 ports for a desk PC, HDMI only port for a device such as a document camera, multi-level mic input, and a full 480Mb USB device port for any peripheral of choice - USB stick, headset etc.

Control Wall Plate

PT-PK200-CTRL

The kit also includes an additional wall plate controller module, providing simple end-user control with easy source selection and volume adjustment. The wall plate can be placed either at the desk or nearer the TV depending on the teachers preference.

Cost-Effective ProAV Amplifier

PT-AA220

The PureTools AA220 is a budget conscious 40W amplifier. It is ideally suited to small installations such as a classroom, where being heard is important but paying for a high-end amplifier is not feasible. Adjust volume, bass and treble controls for perfect acoustics via front panel button, IR remote & RS232. For a larger room, additional AA220's can quickly and easily be daisy-chained in making it conveniently scalable at a very low cost.
